battlerite royale - legendary adventure pack

The skins are really ugly, but the mount is nice :P. I bought this DLC, and you dont recieve the weapons that are clearly showcased as apart of the legendary outfits you purchase. 32\u20ac for half finished sets, very dissapointing.. Freya is a little ugly and I don't use. But Jumong, Raigon, Bakko, and Ashka are all gorgeous. Support the game and look great doing it!. Weapons aren't included. Beware. Jumong's face is so unpolished and ugly...

I bought this to support the game... but I thought they would add new royale skins to the game for free\unlock after this pack. Now that they are out of ea and have released adventure pack 2 I am a bit upset, as I have every royale weapon, but no skins to try and unlock specifically for royale in game.. Mount is so cute :p. I would never spend 44,98\u20ac on skins DLC ;PPppPPpp

i don't care that i did spend alot of money on this game! I supporting them.

The skins are really sick :) enjoy. I've always loved Battlerite, played arena way back in early access and put in over 200 hours. Got the Ultimate Fan Pack back then same as I got this because I believe these developers make amazing games that deserve to be played and supported. Hopefully Battlerite Royale blows up! Oh yeah and the skins are nice too haha.
